

Introduction to the Indigenous Navigator framework and tools - Generic Course Plan

<p>Module 1: Introduction</p> <ul style="list-style-type: none"> • What we monitor • Long process of discussing monitoring of UNDRIP internationally – Navigator conceived in response to this. Now recommended by UNPFII • Quick intro to questionnaires • Why monitor • 	<p>Module 5: SDGs and Human Rights</p> <ul style="list-style-type: none"> • 2030 agenda firmly anchored in HuRi • Open process – IPs one of 9 Major Groups • Leave no-one behind – commitment to non-discrimination • Commitment to HRBA in implementation, follow-up and review • Commitment to use multiple data sources for monitoring – Navigator can feed directly into this (citizen-generated data) • IPMG engagement in SDG process • IP engagement in national processes (data/SDG-UNDRIP) 	<p>Module 9: IP Index values</p> <ul style="list-style-type: none"> • Graphic illustration of data – strong communication value • Allows comparison of data – community/national – between countries – from time to time in the same place... • Tech. explanation of calculation • Exercises
<p>Module 2: Overview of tools and resources</p> <ul style="list-style-type: none"> • Quick presentation of all tools • Questionnaires rooted in thorough analysis • Full transparency into technical approach / analytical foundations – but Q can also be used without worrying about technicalities 	<p>Module 6: Monitoring the SDGs</p> <ul style="list-style-type: none"> • SDGs and IPs (IPs typically ‘left behind’ – data is key) • Navigator data’s relevance and use for SDG monitoring • General relevance of Navigator-generated data • Integration of SDG indicators into Navigator framework 	<p>Module 10: Methodology for use of National Questionnaire</p> <ul style="list-style-type: none"> • Measures states recognition of IP Rights – structure and process indicators • Desk research • Use of guidance material • Ex.of where to find relevant information • Exercises
<p>Module 3: Monitoring UNDRIP</p> <ul style="list-style-type: none"> • A holistic approach to monitoring IP rights and development – the 13 domains • Overarching principles of non-discrimination and self-determination • Collective and individual rights, incl. gender equality • UNDRIP is a reflection of universal human rights • The mirror effect – comparative matrix • Treaty bodies’ contribution to monitoring IP rights • Exercises 	<p>Module 7: Intro to questionnaires – C & N</p> <ul style="list-style-type: none"> • Simple and user-friendly – and part of a comprehensive and coherent framework, systematic and stringent in design • Every question reflect particular UNDRIP articles – and some also SDG and WCIP indicators • Attributes - indicators • From indicators to questionnaire • Complementarity between national and community questionnaires: Legislation, policies and programmes in nat Q – implementation of UNDRIP on the ground in Comm Q 	<p>Module 11: Methodology for use of Community Questionnaire</p> <ul style="list-style-type: none"> • Preparing • Generating collective responses • Ensuring accuracy - using guidance to understand the questions, and communicate them clearly • Technical intro to online Q and its use • Exercises
<p>Module 4: Monitoring the WCIP</p> <ul style="list-style-type: none"> • WCIP 2014 – stock-taking of implementation of IP rights • Specific commitments by states to respect, promote and advance IP rights – expressed in outcome doc • WCIP indicators built into the Navigator 	<p>Module 8: Technical intro to indicators (optional)</p> <ul style="list-style-type: none"> • Structuring UNDRIP into thematic domains • Categorization of UNDRIP articles • Defining key attributes • Choosing the right indicators 	<p>Module 12: Validity, ‘storage’ and use of data</p> <ul style="list-style-type: none"> • Robustness of design • Transparency • Reliability, credibility and acceptability of data built into data collection process

Kommentar [SS1]: This can only be developed once we have decided how to build up the bank of data
